## Stall Cards and Temperature Taking:

- Stall cards are available on our website to be printed. Printed copies will also be available at the venue.
- Stall cards must be completed for each horse, including the horse's name and 24-hour emergency contact information, and placed on the horse's stall door.
- You must check your horse's temperature twice a day and record it on the Horse Temperature Chart. A normal horse temperature is between 37.2 – 38.3° C. Any temperature over 38.8° C (102° F) must be reported to the secretary's office.

## In Stabling Area:

- Sanitize hands frequently, especially after being in contact with your horse.
- Please dispose of manure in designated areas only.
- Do not submerge the end of a common use water hose into a water bucket.
- If your horse develops a fever or signs of illness, contact the secretary's office immediately.

## Best practices

- Ensure horses are healthy and properly vaccinated. Manage horses from the same barn or farm as a group, and stall together at the event.
- Minimize contact between riders, grooms, trainers, and coaches with horses that are not their own.
- Dedicate equipment to your horses and prevent sharing amongst horses.
- Ensure supplies for cleaning and disinfection are provided or brought to the event and the assigned stalls cleaned if necessary.
- Monitor horse health including body temperature daily while at the event. Report any abnormalities to the show coordinator.
- Avoid any form of direct (for example: nose-to-nose) and indirect (for example: common surfaces in wash stalls) contact between horses.
- Post-competition, horses should be monitored closely for signs of illness.
